

BEFORE
THE PUBLIC SERVICE COMMISSION OF
SOUTH CAROLINA
DOCKET NO. 98-565-C - ORDER NO. 1999-141
FEBRUARY 22, 1999

IN RE:	Application of Dakota Services, Ltd. for a)	ORDER
	Certificate of Public Convenience and)	APPROVING
	Necessity to Provide Local Facilities-Based)	CERTIFICATE
	Digital Communications Services and to)	
	Provide Interexchange Digital)	
	Communications Services.)	

This matter comes before the Public Service Commission of South Carolina ("the Commission") by way of the Application of Dakota Services, Ltd. ("DSL" or "the Company") for authority to provide both local exchange and long distance telecommunications services within the State of South Carolina. By its Application DSL requests a Certificate of Public Convenience and Necessity to provide (1) local facilities-based digital communications services and (2) interexchange, intraLATA and interLATA, digital communications services in the State of South Carolina. The Application was filed pursuant to S.C. Code Ann. §§ 58-9-280 and 58-9-520 and the Regulations of the Commission.

By letter, the Commission's Executive Director instructed DSL to publish, one time, a prepared Notice of Filing in newspapers of general circulation in the areas affected by the Application. The purpose of the Notice of Filing was to inform interested parties of the manner and time in which to file the appropriate pleadings for participation in the proceedings. DSL complied with this instruction and provided the Commission with proof

of publication of the Notice of Filing.

A Petition to Intervene was received from the South Carolina Telephone Association ("SCTA"). On January 20, 1999, Counsel for SCTC filed with the Commission a Stipulation in which DSL stipulated that it would only seek authority in non-rural local exchange ("LEC") service areas of South Carolina and that it would not provide any local service to any customer located in a rural incumbent's service area, unless and until DSL provided written notice of its intent prior to the date of the intended service. DSL also stipulated that it was not asking the Commission to make a finding at this time regarding whether competition is in the public interest for rural areas. DSL agreed to abide by all State and Federal laws and to participate to the extent it may be required to do so by the Commission in support of universally available telephone service at affordable rates. The SCTC withdrew its opposition to the granting of a statewide Certificate of Public Convenience and Necessity to DSL provided the conditions contained in the Stipulation are met. The Stipulation is approved and attached as Order Exhibit 1.

A hearing was commenced on February 3, 1999, at 11:30 a.m., in the Commission's Hearing Room. The Honorable Philip T. Bradley, Chairman, presided. DSL was represented by Bonnie D. Shealy, Esquire. Florence P. Belser, Staff Counsel and Jocelyn Green, Staff Counsel represented the Commission Staff.

Deborah Ambruso, Regulatory Compliance Manager of DSL, appeared and offered testimony in support of DSL's application. The record reveals that DSL is a Wisconsin corporation which is authorized to conduct business in South Carolina as a foreign corporation with the South Carolina Secretary of State. According to Ms. Ambruso, DSL seeks authority to provide high-speed, data transmission and

telecommunications services. Ms. Ambruso testified that DSL's network which utilizes existing telephone lines and infrastructure allows for the transmission and receipt of data at 50 to 200 times the speed of modems currently used in the marketplace. Ms. Ambruso stated that the DSL network is strictly a data transfer network and will allow customers who use the network to send and receive information to and from the internet at a high rate of speed and to link local area networks at various locations nationwide for the transfer of data.

Ms. Ambruso explained that DSL possesses the technical, financial, and managerial resources and abilities to provide the interexchange and local exchange telecommunications services for which DSL seeks authority. According to Ms. Ambruso, DSL's management team has over twenty years of business experience and education in information technology. With regard to DSL's financial qualifications, Ms. Ambruso stated that DSL has sufficient capital to establish, market, operate, and maintain the services contemplated by DSL, and further, that DSL has venture and debt capital readily available. Ms. Ambruso also stated that DSL has at its disposal personnel with design network experience.

Ms. Ambruso offered that DSL's entry into the telecommunications industry in South Carolina will enhance the way businesses communicate through the internet and between and among computers. Further, the presence of DSL in the competitive marketplace of data services will also increase incentives for other telecommunications providers to operate more efficiently, offer more innovative services, reduce prices, and improve the quality of services. Ms. Ambruso also testified that approval of DSL's application would not adversely impact affordable local exchange service.

Ms. Ambruso testified that the Company would operate in accordance with the Commission rules, regulations, guidelines and Commission Orders. Ms. Ambruso also stated that DSL would support universally available telephone service at affordable rates and that the provision of local service by DSL would not adversely impact affordable local service. Ms. Ambruso specifically stated that the services DSL will provide will meet the service standards of the Commission. Additionally, the record reveals descriptions of DSL's services, operations and marketing procedures.

After full consideration of the applicable law, the Company's application, and the evidence presented at the hearing, the Commission hereby issues its findings of fact and conclusions of law.

FINDINGS OF FACT

1. DSL is organized as a corporation under the laws of the State of Wisconsin and has received a certificate from the South Carolina Secretary of State to transact business within South Carolina as a foreign corporation.
2. DSL wishes to provide local exchange services and interexchange services within the State of South Carolina.
3. The Commission finds that DSL possesses the technical, financial, and managerial resources sufficient to provide the service requested.
4. The Commission finds that DSL's "provision of service will not adversely impact the availability of affordable local exchange service." S.C. Code Ann. § 58-9-280(B)(3) (Supp. 1997).
5. The Commission finds that DSL will support universally available telephone service at affordable rates. S.C. Code Ann. §58-9-280(B)(4) (Supp. 1997).

6. The Commission finds that DSL will provide services which will meet the service standards of the Commission. S.C. Code Ann. §58-9-280(B)(2) (Supp. 1997).

7. The Commission finds that the provision of local exchange service by DSL “does not otherwise adversely impact the public interest.” S.C. Code Ann. §58-9-280(B)(5) (Supp. 1997).

CONCLUSIONS OF LAW

1. Based on the above findings of fact, the Commission determines that a Certificate of Public Convenience and Necessity should be granted to DSL to provide local facilities-based digital communications services in South Carolina. The provision of communications services by DSL is subject to the terms of the Stipulation between DSL and SCTC. DSL is also authorized to provide intrastate interexchange service in South Carolina by providing intrastate interLATA service and by originating and terminating toll traffic within the same LATA, as set forth herein

2. DSL shall file, prior to offering local exchange services in South Carolina, its final tariff of its local service offerings conforming to all matters discussed with Staff and comporting with South Carolina law in all matters.

3. The Commission adopts a rate design for DSL for its long distance services which includes only maximum rate levels for each tariff charge. A rate structure incorporating maximum rate levels with the flexibility for adjustment below the maximum rate levels has been previously adopted by the Commission. In Re: Application of GTE Sprint Communications Corporation, etc., Order No. 84-622, issued in Docket No. 84-10-C (August 2, 1984).

With regard to its long distance services rates, DSL shall not adjust its rates below the approved maximum level without notice to the Commission and to the public. DSL shall file its proposed rate changes, publish its notice of such changes, and file affidavits of publication with the Commission two weeks prior to the effective date of the changes. However, the public notice requirement is waived, and therefore not required, for reductions below the maximum cap in instances which do not affect the general body of subscribers or do not constitute a general rate reduction. In Re: Application of GTE Sprint Communications, etc., Order No. 93-638, issued in Docket No. 84-10-C (July 16, 1993). Any proposed increase in the maximum rate level reflected in the tariff which would be applicable to the general body of the Company's subscribers shall constitute a general ratemaking proceeding and will be treated in accordance with the notice and hearing provisions of S.C. Code Ann. § 58-9-540 (Supp. 1997).

4. If it has not already done so by the date of issuance of this Order, DSL shall file its revised maximum long distance tariff and an accompanying price list within thirty (30) days of receipt of this Order. The revised tariff shall be consistent with the findings of this Order and shall be consistent with the Commission's Rules and Regulations.

5. DSL is subject to access charges pursuant to Commission Order No. 86-584 in which the Commission determined that for access purposes resellers should be treated similarly to facilities-based interexchange carriers.

6. Should DSI begin to offer services for voice transmission, an end-user should be able to access another interexchange carrier or operator service provider if the end-user so desires.

7. DSL shall use the underlying networks or resell the services of only those interexchange carriers or LECs authorized to do business in South Carolina by this Commission. If DSL changes underlying carriers, it shall notify the Commission in writing.

8. With regard to the origination and termination of toll calls within the same LATA, DSL shall comply with the terms of Order No. 93-462, Order Approving Stipulation and Agreement, in Docket Nos. 92-182-C, 92-183-C, and 92-200-C (June 3, 1993).

9. DSL shall file surveillance reports on a calendar or fiscal year basis with the Commission as required by Order No. 88-178 in Docket No. 87-483-C. The proper form for these reports is indicated on Attachment A.

10. The Company shall, in compliance with Commission regulations, designate and maintain an authorized utility representative who is prepared to discuss, on a regulatory level, customer relations (complaint) matters, engineering operations, tests and repairs. In addition, the Company shall provide to the Commission in writing the name of the authorized representative to be contacted in connection with general management duties as well as emergencies which occur during non-office hours.

DSL shall file the names, addresses and telephone numbers of these representatives with the Commission within thirty (30) days of receipt of this Order. Attachment B shall be utilized for the provision of this information to the Commission. Further, the Company shall promptly notify the Commission in writing if the representatives are replaced.

11. DSL shall conduct its business in compliance with Commission decisions and Orders, both past and future, including but not limited to, any and all Commission decisions which may be rendered in Docket No. 96-018-C regarding local competition.

12. The Company is directed to comply with all Rules and Regulations of the Commission, unless a regulation is specifically waived by the Commission.

13. Title 23, Chapter 47, South Carolina Code of Laws Ann., governs the establishment and implementation of a “Public Safety Communications Center,” which is more commonly known as a “911 system” or “911 service.” Services available through a 911 system include law enforcement, fire, and emergency medical services. In recognition of the necessity of quality 911 services being provided to the citizens of South Carolina, the Commission hereby instructs DSL to contact the appropriate authorities regarding 911 service in the counties and cities where the Company will be operating. Contact with the appropriate 911 service authorities is to be made before offering local telephone service in South Carolina. Accompanying this Order is an information packet from the South Carolina Chapter of the National Emergency Number Association (“SC NENA”) with contact information and sample forms. The Company may also obtain information by contacting the E911 Coordination at the Office of Information Resources of the South Carolina Budget and Control Board. By this Order and prior to providing services within South Carolina, DSL shall contact the 911 Coordinator in each county, as well as the 911 Coordinator in each city where the city has its own 911 system, and shall provide information regarding the Company’s operations as required by the 911 system.

14. This Order shall remain in full force and effect until further Order of the Commission.

Docket No. 98-565-C

Re: Application of Application of Dakota Services Limited for a)
Certificate of Public Convenience and Necessity to Provide)
Local Facilities-Based Digital Communications Services and)
to Provide Interexchange (intraLata and interLata) Digital) **STIPULATION**
Communications Services in the State of South Carolina)
)
)

The South Carolina Telephone Coalition ("SCTC") (see attachment "A" for list of companies) and Dakota Services Limited ("Dakota") hereby enter into the following stipulations. As a consequence of these stipulations and conditions, the necessity for SCTC's intervention in this matter is avoided and SCTC withdraws its opposition to Dakota's Application. SCTC and Dakota stipulate and agree as follows:

1. SCTC does not oppose the granting of a statewide Certificate of Public Convenience and Necessity to Dakota, provided the South Carolina Public Service Commission ("Commission") makes the necessary findings to justify granting of such a certificate, and provided the conditions contained within this stipulation are met.
2. Dakota stipulates and agrees that any Certificate which may be granted will authorize Dakota to provide service only to customers located in non-rural local exchange company ("LEC") service areas of South Carolina, except as provided herein.

3. Dakota stipulates that it is not asking the Commission to make a finding at this time regarding whether competition is in the public interest for rural areas.

4. Dakota stipulates and agrees that it will not provide any local service, by its own facilities or otherwise, to any customer located in a rural incumbent LEC's service area, unless and until Dakota provides such rural incumbent LEC and the Commission with written notice of its intent to do so at least thirty (30) days prior to the date of the intended service. During such notice period, the rural incumbent LEC will have the opportunity to petition the Commission to exercise all rights afforded it under Federal and State law. Also, Dakota acknowledges that the Commission may suspend the intended date for service in rural LEC territory for ninety (90) days while the Commission conducts any proceeding incident to the Petition or upon the Commission's own Motion, provided that the Commission can further suspend the implementation date upon showing of good cause.

5. Dakota stipulates and agrees that if, after Dakota gives notice that it intends to serve a customer located in a rural incumbent LEC's service area, the Commission receives a Petition from the rural incumbent LEC to exercise its rights under Federal or State law, or the Commission institutes a proceeding of its own, then Dakota will not provide service to any customer located within the service area in question without prior and further Commission approval.

6. Dakota acknowledges that any right which it may have or acquire to serve a rural telephone company service area in South Carolina is subject to the conditions contained

herein, and to any future policies, procedures, and guidelines relevant to such proposed service which the Commission may implement, so long as such policies, procedures, and guidelines do not conflict with Federal or State law.

7. The parties stipulate and agree that all rights under Federal and State law are reserved to the rural incumbent LECs, and this Stipulation in no way suspends or adversely affects such rights, including any exemptions, suspensions, or modifications to which they may be entitled.

8. Dakota agrees to abide by all State and Federal laws and to participate, to the extent it may be required to do so by the Commission, in the support of universally available telephone service at affordable rates.

9. Dakota hereby amends its application and its prefiled testimony in this docket to the extent necessary to conform with this Stipulation.

AGREED AND STIPULATED to this 6th day of January, 1999.

To: Telephone Companies New to South Carolina

In an effort to continue providing quality emergency services to the citizens of South Carolina, the SC NENA (National Emergency Number Association) requests that before beginning telephone service in a county, you contact the 911 Coordinator in that county. This will allow both parties to obtain important information about providing 911 services in that county. If you have already begun service, then contact the coordinator as soon as possible.

A list of County 911 Coordinators is provided with this letter. A list is also maintained on the South Carolina E911 homepage at www.state.sc.us/911. If you have any questions related to 911 in South Carolina, you may contact E911 Coordination at the Office of Information Resources at 803-737-9616. The person responsible for this can also be found on the 911 homepage. Please be aware that some cities may have their own E911 systems, these are listed on the attached list and on the 911 homepage. These city coordinators will need to be contacted in addition to the county coordinators.

MEMO OF ACKNOWLEDGEMENT AND UNDERSTANDING BETWEEN COMPANY AND 9-1-1 ENTITY

EXPLANATION SHEET

PURPOSE: Formal standardized exchange of information between the CLECs and the 9-1-1 Entities.

Attachment No. 1 - This attachment is to be filled out by the CLEC.

Provides 9-1-1 related information on the Company's service plan including: Company network; 9-1-1 network interconnection; service areas and offerings; database updates and anticipated commercial service cutover dates.

Attachment No. 2 - This attachment is to be filled out by the CLEC.

Provides name, title and contact numbers for database, billing, service installation/cutover, network operations and 9-1-1 coordination. This information will include 24 hour 7 day emergency contact number and management escalation.

Attachment No. 3 - This attachment is to be filled out by the 9-1-1 Managing Entity.

Contains 9-1-1 Entity provided information for default routing in various types of 9-1-1 call failure conditions or where a customer dials "O" for Operator instead of 911. Includes "default" PSAP designations, Public Switched Network 10 digit "default" PSAP telephone numbers and special routing information that may be required for operation of the 9-1-1 System.

Attachment No. 4 - This attachment is to be filled out by the CLEC.

Provides detailed testing plan for Company's 9-1-1 interconnection prior to live commercial service cutover. Includes test call process for 9-1-1 trunk group to the 9-1-1 tandem, ALI database entries, default routing and calls to an Operator.

Attachment No. 5 - This attachment is to be filled out by the CLEC.

Provides detailed information on procedures to be followed by the company in the case of 9-1-1 trunk group failure, 9-1-1 tandem failure or Company switch isolation from the Public Switched Network.

Attachment No. 6 - This attachment is to be filled out by the 9-1-1 Managing Entity.

Provides all the information necessary for Company billing and remittance of the 9-1-1 fees. This will include authorizing law or Fee Order; detail on charges and differences between residential, business line and business trunk charges; charging limitations for large customers, if any; administrative fee to be retained by the Company and remittance destination information.

Attachment No. 7 - This attachment is to be filled out by the CLEC.

Details charges involved with providing 9-1-1 service incurred by the Company. These will normally be passed through to the 9-1-1 Entity. Included are Company costs for connecting to the 9-1-1 network, 9-1-1 Network use charges, if any, and 9-1-1 database preparation costs.

Attachment No. 8 - This attachment is to be filled out by the 9-1-1 Managing Entity.

Provides name, title and contact numbers for database, billing, PSAP operations, 9-1-1 Entity management, and the Lead Telco Representative.

All attachments are necessary for the full exchange of information. Some CLECs may not elect to complete Attachment No. 7 at the time of initial exchange, but reserve for future use.

A Memo of Acknowledgement and Understanding would be completed for each county. Certain attachment information will be different for each county.

Memo of Acknowledgement and Understanding
Between Company and 9-1-1 Entity

This document, together with Attachments 1 through 8, summarizes and acknowledges the establishment of a working relationship between _____ ("Company") and _____ ("the 9-1-1 Entity").

Company

- Will provide local exchange service throughout _____ area starting approximately _____ 199__. See Attachment 1 for 9-1-1 Service Plan.
- Is a Certified Local Exchange Carrier in the State of _____.
- Will be in compliance with all applicable state and local regulations.
- Will provide the 9-1-1 Entity with its contact and escalation list, as set forth in Attachment 2.

Company Network Service

- Has completed an Interconnection Agreement with _____ ("ILEC").
- Has agreed to provide 911 Tandem/Trunking through _____ ("ILEC").
- Has agreed to provide Database Access through _____ ("ILEC").
- Will provide database updates within 24 hours.
- Will use "default" PSAP in case of 9-1-1 network failure and for Operator routing as set forth in Attachment 3.
- Provides a 9-1-1 Test Plan and Disaster Recovery Plan as set forth in Attachments 4 & 5.

Company Billing

- Will bill and remit collected authorized 9-1-1 Emergency Service Fee, less all authorized collection fees, as described in Attachment 6.
- Reserves the right to retain or bill an additional fee for "Network Services" charges, as set forth in Attachment 7 as allowed by tariff and state law.

9-1-1 Entity

- Provides a PSAP, Lead Telco and 9-1-1 Entity contact and escalation list as set forth in Attachment 8.
- Designates the "default" PSAP and default PSAP 10 digit access number for network failure and Operator routing as set forth in Attachment 3.
- Provides Emergency Service Fee information as set forth in Attachment 6.
- Provides Emergency Service Fee remittance and Network Services charge billing name and address in Attachment 6.
- Provides a copy of this Memo of Acknowledgement and Understanding to their lead telco after execution.
- Acknowledges that a working relationship exists with the Company both directly and, as appropriate, through the ILEC.
- Acknowledges that the Company has established network and service preparation plans for the completion of Company customer 911 calls.

The parties agree to update, as necessary, and provide the other party with any revisions, amendments or modifications to the information contained in Attachments 1 through 8.
